SUMMARY

Data analyst with 2+ years in financial lines P&C insurance (Management Liability and Professional Lines) and an Executive PG Diploma in Data Science & AI from IIIT Bangalore (2026). Builds Power BI dashboards and Excel KPI reporting, analyses demand and funnels with SQL and Python, and forecasts with time-series models. Reconciles data to a high standard of accuracy and explains findings clearly to technical and business audiences.

SKILLS

BI & Reporting	Power BI (DAX, Power Query, star-schema modelling), Tableau, Advanced Excel, KPI dashboards and reports
Data & Analysis	SQL, Python (pandas, NumPy), PySpark, Spark SQL, ETL, data cleaning and validation, statistics
Demand & Forecasting	Time-series forecasting (SARIMA and baselines), Box-Cox, RMSE / MAPE, demand, funnel and trend analysis
Financial Lines	Management Liability and Professional Lines, rater tools, financial modelling, KPI reporting

PROJECTS

Namma Yatri Ride-Hailing Dashboard · BI · Demand Intelligence · Power BI — 2026

- Designed a 5-table star schema with role-playing dimensions; built DAX measures and Power Query transforms for demand by hour and zone, revenue, payments and cancellations.
- Analysed the quote-to-completion funnel and delivered separate technical and management presentations.

Airline Passenger Demand Forecasting · Forecasting

- Compared 13 models, from Naive to SARIMA, using Box-Cox transformation and RMSE / MAPE evaluation to select the most accurate forecast, analysing trend and seasonality.

California Traffic Collision ETL & Analysis · SQL, PySpark & AWS S3

- Built an ETL pipeline on 1M+ collision records (PySpark, Spark SQL): derived fields, recoding, schema standardisation; exported cleaned data to AWS S3 and produced 12 charts.

EXPERIENCE

Senior Executive, P&C Insurance Operations · Xceedance, New Delhi — 2+ years

Financial Lines · Management Liability (D&O, EPL, Fiduciary, Crime) · Professional Lines (Allied Healthcare, MPL, A&E)

- Produced recurring KPI reports and dashboards in Power BI and Excel, tracking performance metrics for stakeholders.
- Built and maintained Excel-based rater tools and financial models for financial lines, validating inputs and outputs for accuracy.
- Reconciled data across sources and client databases, tracing discrepancies to their root cause before delivery.
- Managed client queries in Zendesk, authored SOPs and trained new team members.

Tools: Advanced Excel, Power BI, Zendesk, client databases

EDUCATION

Executive PG Diploma in Data Science & AI · IIIT Bangalore (via upGrad) — 2026 · GPA 3.82 / 4.00

Equivalent to a PGD · Python, SQL, statistics, ML, deep learning & NLP, PySpark, cloud, GenAI / LLMs

B.A. Mathematics & Office Management (OMSP) · University of Delhi — 2020 – 2023 · CGPA 7.43

Advanced mathematics, operational research, R programming

CERTIFICATIONS

Google Data Analytics Professional Certificate (Coursera) · Programming & Mathematics Bootcamp (UpGrad)

The New Age of Data Science: Working with Google Data Agent Kit (Maven, Oct 2026) · selected 200 of 1,300 applicants
