SUMMARY

AI applications developer with an Executive PG Diploma in Data Science & AI from IIIT Bangalore (2026) and 2+ years in financial lines P&C insurance. Builds and deploys RAG applications in Python (LangChain, ChromaDB, FastAPI, Docker, Google Cloud Run), fine-tunes models with LoRA, and evaluates outputs with RAGAS, ROUGE / BLEU and hallucination checks. Brings insurance data domain knowledge and clear communication.

SKILLS

LLM & RAG	RAG pipelines, LangChain (LCEL), ChromaDB, embeddings, prompt engineering, Ollama, Gemini API, anti-hallucination prompting
Fine-Tuning & ML	LoRA / PEFT, Hugging Face Transformers, PyTorch, DeBERTa-v3 (Kaggle grammar-scoring task), scikit-learn
Evaluation	RAGAS, ROUGE / BLEU, RMSE, Pearson, held-out and adversarial testing
Python & Deployment	Python, FastAPI, SQL, JSON, Docker, Google Cloud Run, AWS (S3, Lambda), Git / GitHub

PROJECTS

Ask Piyush AI: Portfolio RAG Chatbot · Live · FastAPI, Docker, Cloud Run — 2026

- Built and deployed the RAG chatbot on this website end to end: FastAPI backend in Docker on Google Cloud Run, Gemini as the LLM, floating widget.

Hybrid RAG Fine-Tuned for Customer Support · Capstone — 2026

- Built Baseline, Naive RAG and Hybrid RAG pipelines (Qwen2.5-1.5B, LangChain, ChromaDB over SOP documents) with a LoRA fine-tuned intent router (PEFT, 4-bit quantisation, custom PyTorch loop).
- Validated on a held-out set: intent match, ROUGE / BLEU, consistency, hallucination checks, adversarial queries.

RAG for Legal Documents · Retrieval · IIIT Bangalore — 2026

- Built a RAG pipeline (LangChain LCEL, ChromaDB, 84,844 chunks, local Ollama model); RAGAS: context precision 1.00, recall 0.75, faithfulness 0.71.

EXPERIENCE

Senior Executive, P&C Insurance Operations · Xceedance, New Delhi — 2+ years

Financial Lines · Management Liability (D&O, EPL, Fiduciary, Crime) · Professional Lines (Allied Healthcare, MPL, A&E)

- Built and maintained Excel-based rater tools and financial models for financial lines, validating inputs and outputs for accuracy.
- Produced recurring KPI reports and Power BI / Excel dashboards, reconciled data across sources and managed client queries in Zendesk.
- Authored SOPs and trained new team members.

Tools: Advanced Excel, Power BI, Zendesk, client databases

EDUCATION

Executive PG Diploma in Data Science & AI · IIIT Bangalore (via upGrad) — 2026 · GPA 3.82 / 4.00

Equivalent to a PGD · Python, SQL, statistics, ML, deep learning & NLP, PySpark, cloud, GenAI / LLMs

B.A. Mathematics & Office Management (OMSP) · University of Delhi — 2020 – 2023 · CGPA 7.43

Advanced mathematics, operational research, R programming

CERTIFICATIONS

Google Data Analytics Professional Certificate (Coursera) · Programming & Mathematics Bootcamp (UpGrad)

The New Age of Data Science: Working with Google Data Agent Kit (Maven, Oct 2026) · selected 200 of 1,300 applicants
